Allowable Subject Matter

Claims 1-45 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 13, 22, 29, 37, with the allowable feature being; the specific components and their ordered arrangement(claims 1, 13, 22, 29, 37). Therefore claims 1-45 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kato et al.(U.S. Pat. No. 5,859,945) is pertinent to the application since he pertains to modulator/combiners.
